

DANIEL HINZE

Software Developer

EXPERIENCE

SPROUT SOCIAL - Web Engineer

March 2017 - August 2018

I worked on Sprout's reporting features, creating rich yet simple reports giving users metrics and data for their various social media accounts

UPTAKE - Software Engineer

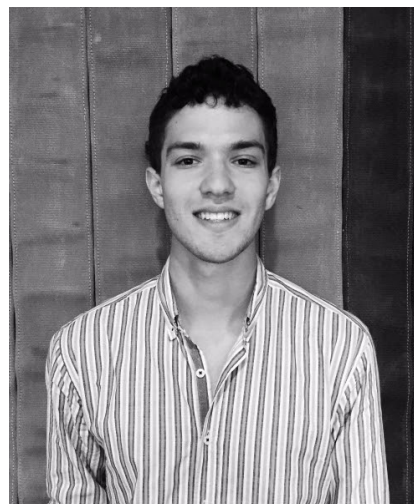

January 2016 - February 2017

I worked on a data mapping tool for importing client data into Uptake's platform in a format suitable for consumption

UPTAKE - Solutions Engineer

July 2015 - January 2016

Served a variety of functions, highlights included refinement of product feature definitions, as well as data wrangling client data for analysis by Uptake's data science team
